

*A Heartfelt Wish
Come True*

Phoebe Goes to Turks and Caicos

Your generosity helped five-year-old Phoebe's wish come true!

Five-year-old Phoebe loves books. When she's not receiving treatment for acute lymphoblastic leukemia, this little girl is reading, playing outside, and listening to all sorts of music. Phoebe likes to make up stories, go to the beach, and watch her favorite show, *Sesame Street*.

When Phoebe learned she would be granted a wish, she thought about all of the things she enjoys. Combining her love of the beach and her love of her furry friends from *Sesame Street*, she wished to visit *Sesame Street* at Beaches Turks and Caicos!

After counting down the weeks, departure day arrived. Over the course of her stay on the tropical island, Phoebe spent countless hours by the ocean. She and her family buried each other's toes in the sand, splashed around in the water, and took photos running along the shoreline. Phoebe loved lying on her towel, closing her eyes, and feeling the warm sun. It was such a nice change from days spent in doctors' offices. Of course, the highlight of Phoebe's wish was meeting and talking with all of her favorite *Sesame Street* characters. She posed for pictures with them and even had the opportunity to bake cookies with Cookie Monster.

On her wish, Phoebe shared in laughter and playtime with her family, with worries about her illness far from her mind. Thank you for your generous support, which helped restore hope, strength, and joy for this courageous young girl.

Thank you
